DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 3-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 9 are not written in clear format for U.S. practice. "The roof parts" of the first insertion of 10/22/2008 lack antecedent as three are claimed. The comma on line four of the first insertion after "part" confuses the phrase and should be deleted.

Claim 11 continues to be vague in "can be". This rejection is repeated.

Claim Objections

3. Claims 1, 3-12 are objected to because of the following informalities: Claims 1, 9, last two lines of page 2 of 10/22/2008, is awkward. The "when the rear roof part is opened" clause should come first in the insertion and the duplicate "rear roof part" entry is then no longer necessary. Appropriate correction is required.

Allowable Subject Matter

4. Claims 1, 3-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter:
The references to France-Design lacks the location of the swivel arms and the rear roof part

lowered into the body for providing space. Antreich reference of record discloses the first mentioned limitation, but lacks the vertical orientation of the front roof parts. The reference to Rothe discloses the first mentioned limitation, and the vertical orientation of the front roof parts but lacks the rear roof part lowered into the body for providing space. Newly cited reference to Schutt et al. discloses the first mentioned limitation and the rear roof part lowered into the body but lacks the vertical orientation of the front roof parts.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
